

Lead Scoring Analysis: Overall & Core Channel Metrics

Dataset Scope: ~9,240 Records | Focused Channels: Google, Direct & Reference

AUTHOR	TOTAL DATASET VOLUME	EVALUATED CORE VOLUME	CORE CHANNEL CONVERSIONS
Ayush Kumar Gupta	9,240 Rows (~9k Leads)	5,945 Leads (64.34%)	2,455 Converted Leads

1. Executive Dataset Overview

Out of the complete dataset consisting of **9,240 lead rows (~9k total leads)**, the top three channels—**Google**, **Direct Traffic**, and **Reference**—account for **5,945 leads (64.34% of the total 9.24k database volume)** and generate **2,455 total conversions**.

2. Core Channel Metrics & Total Dataset Breakdown

Acquisition Channel	Lead Volume	Share of Total Dataset (~9,240)	Converted Leads	Conversion Rate (%)	Channel Role
Google	2,868	31.04%	1,147	39.99%	Primary Growth & Volume Engine
Direct Traffic	2,543	27.52%	818	32.17%	Organic Brand Intent
Reference	534	5.78%	490	91.76%	High-Intent Priority Stream
Subtotal (Top 3 Channels)	5,945	64.34%	2,455	41.29%	Core Business Focus
Other Channels / Streams	3,295	35.66%	1,108	33.63%	Secondary Traffic
Total Dataset Volume	9,240	100.00%	3,563	38.56%	Full Database Scope

3. Key Analytical Calculations

Reference Channel Efficiency: At a **91.76% conversion rate** (490 out of 534), Reference leads convert at nearly **2.3x the efficiency of Google** (39.99%) and **2.8x the efficiency of Direct Traffic** (32.17%).

- Dataset Share Calculation:** The core channels represent **64.34% (5,945 / 9,240)** of the entire ~9k dataset.
- Core Conversion Weight:** Core channels yield **2,455 conversions**, representing **68.90% (2,455 / 3,563)** of all successful customer conversions across the entire 9.24k database.

4. Strategic Recommendations

- Automated SLA & Lead Priority Routing:** Directly route incoming Reference leads to senior reps within 15 minutes of entry.
- Expand Peer Referral Programs:** Incentivize existing customers to increase the Reference volume share beyond its current 5.78% baseline.
- Optimize Google Landing Pages:** Improve conversion efficiency on Google search traffic from 39.99% toward a target of 45%+.

Executive Takeaway: Leveraging high-volume channels (Google & Direct) for reach while scaling high-converting channels (Reference) drives optimal customer growth.
